### **[Animation zoom through history to the present]**

"TIME MACHINE" (VOICE OVER):

Hello, I'm your time machine here to show you the vastness of all time compared to the brief moments we have on Earth and how precious they are.

We enter your universe at a time when astrophysicists believe there was a big bang.

We'll follow a symbolic representation of your solar system's spiraling path around the Milky Way galaxy, zooming in to the thin blue line which represents all of recorded human history,

Reviewing history can help you learn from the past, but don't let any mistakes hold you back from living and loving in the present -

reaching out the hand of friendship around the world. It doesn't matter who you are, where you live, or what language you speak--

### **[The Future]**

"TIME MACHINE" (VOICE OVER):

We hope you will be inspired to reach out the hand of friendship in this and all future years, as you listen to the beliefs of your fellow humans about friendship:

And if you're not religious. You may be one of the many fans of science fiction that want a Star Trek future with the ultimate law called the "Prime Directive." It says we must respect the sovereignty of other evolving civilizations, as we venture into space.

[#11]

Well why wait to show respect for others? Let's all follow our own directive to respect each other's sovereignty and human rights, as we work to create a future of friendship and world peace with love in this and all future years.

So have a fine day and have a ....

[Everyone]

"Happy Year of Friendship!"

## **[Addendum]**

ON CAMERA (recorded at another time)

Hi I'm Kim Watkinson. I'd like to thank our professional singer Stephany Prodromos. Stephany and I would like to thank the other singers who are our colleagues at DISH TV/Sling TV and their family members.

My husband David, who is behind the camera, would like to add his thanks to everyone. He wrote the song "Have a Fine Day" and asked me if I knew anyone at work, who might be interested in singing the song for his Year of Friendship video.

So David thanks our friends at DISH and Sling TV and invites your friends at your organization, club or company, to also sing the song to help spread the message of international friendship.

You can sing along with a recording of Stephany, or with your own lead vocalist.

Eventually, we hope to have people from all countries participate. I personally will be happy to help Japanese speakers navigate the English lyrics, since Japanese was my first language.

If you're interested in participating, please see details at [FineDayTimeTravel.com](http://FineDayTimeTravel.com).

Thank you so much for watching. Have a fine day and a happy year of friendship!
